

Floor coatings

For concrete, wood, tarmac and steel

Local service for global businesses

Axalta Coating Systems is a leading global coatings company focused 100% on the development, manufacture and sale of high performance liquid and powder coatings. Our innovative products and services include paint, colour matching tools, application technologies, customer training and business management systems.

Cutting edge R&D

In addition to our global laboratory locations, Axalta Coating Systems in the UK have research facilities at Huthwaite, Nottinghamshire, serving the UK and Ireland.

Technical support

Our highly experienced Technical! Service personnel can assist with every aspect of your coating operations. Ask about our on-site Process Audit checks to help you optimise your painting processes.

efficient supply chain

Our sales offices organise production and delivery schedules to keep your plants running. Our Technical! staff can visit your sites to advise on optimum stock holding levels.

Single pack floor paints

- Easy to use
- Economical
- light to medium duty

Viterfloor PF

- Polyurethane floor coating
