AXALTA MATERIAL SAFETY DATA SHEET

AXALTA COATING SYSTEMS CANADA COMPANY

05/05/2013

****** SECTION 1 - Product and Company Identification ******

Supplier: Axalta Coating Systems Canada Company
408 Fairall Street
Ajax, ON, L1S 1R6

Manufacturer: Axalta Coating Systems, LLC
1007 Market Street, D-13111
Wilmington, DE, 19898

Telephone: Product Information: (800) 387-2122
Medical Emergency (24 hours): (855) 274-5698
Transportation Emergency (24 hours): (613) 996-6666 (CANUTEC)

PRODUCT IDENTIFIER: Roller Additive for Imron® Industrial Strength

PRODUCT CODE: 9M05 110617

Product Use: PAINT ADDITIVE
Prepared by: Regulatory Affairs

Chemical Family: Not Available

Copyright (c) 2013 Axalta Coating Systems Canada Company. All rights reserved.

** A = ACGIH, O = OSHA, D = Dupont, TWAEV = Ontario, S = Supplier
D=Dupont Results obtained from E.I. duPont de Nemours and Company
(For additional definition of terms, see section 16)
Limits are 8-hour TWA unless otherwise specified.

Emergency Overview:
WARNING! FLAMMABLE LIQUID AND VAPOR. VAPORS AND SPRAY MIST HARMFUL IF INHALED. MAY CAUSE CENTRAL NERVOUS SYSTEM EFFECTS SUCH AS DIZZINESS, HEADACHE, OR NAUSEA. MAY CAUSE NOSE, THROAT, EYE AND SKIN IRRITATION. CAN BE ABSORBED THROUGH THE SKIN.

Potential Health Effects:
Inhalation:
May cause nose and throat irritation. May cause nervous system depression characterized by the following progressive steps: headache, dizziness, nausea, staggering gait, confusion, unconsciousness. Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

Ingestion:
May result in gastrointestinal distress.

Skin or eye contact:
May cause irritation or burning of the eyes. Repeated or prolonged liquid contact may cause skin irritation with discomfort and dermatitis.

Other Potential Health Effects in addition to those listed above:

XYLENE
Increased susceptibility to the effects of this material may be observed in people with preexisting disease of any of the following: bone marrow cardiovascular system central nervous system kidneys liver lungs
Recurrent overexposure may result in liver and kidney injury. High exposures may produce irregular heart beats. Canada classifies Xylene as a developmental toxin as high exposures to xylenes in some animal studies have been reported to cause health effects on the developing fetus/embryo. These effects were often at levels toxic to the adult animal. The significance of these effects to humans is not known. Repeated or prolonged skin contact may cause: irritation dryness cracking of the skin

4-CHLOROBENZOTRIFLUORIDE
Increased susceptibility to the effects of this material may be observed in people with preexisting disease of any of the following: skin
Prolonged or repeated exposure may cause damage to any of the following organs/systems: kidneys liver thyroid
Potential skin sensitizer that may cause allergic reactions and contact dermatitis resulting in severe irritation, dryness, and
cracking of the skin. Ingestion may cause any of the following: gastrointestinal irritation
Eye contact may cause: permanent eye injury
Inhalation may cause: Causes stupor (central nervous system depression). respiratory tract irritation

****** SECTION 4 - First Aid Measures ******

First Aid Procedures:
Inhalation:
If affected by inhalation of vapor or spray mist, move to fresh air.
If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing difficulty persists, or occurs later, consult a physician.
Ingestion:
In the unlikely event of ingestion, DO NOT induce vomiting. Call a physician immediately and have names of ingredients available.
Skin or eye:
In case of contact, immediately flush with plenty of water for at least 15 minutes; call a physician. In case of skin contact, wash thoroughly with soap and water. If irritation occurs, contact a physician.

****** SECTION 5 - Firefighting Measures ******

Flash Point (Method) Between 24 to 38 deg C Closed Cup
Approx. flammable limits LFL 0.9 % UFL 10.5 %
Auto ignition temperature 500.0 Deg C
Hazardous Combustion Products:
CO, CO2, smoke, and oxides of any heavy metals that are reported in "Composition, Information on Ingredients" section.
Extinguishing media:
Universal aqueous film-forming foam, carbon dioxide, dry chemical.
Special fire fighting procedures:
Full protective equipment, including self-contained breathing apparatus, is recommended. Water from fog nozzles may be used to prevent pressure build-up.
Fire & explosion hazards:
Flammable liquid. Vapor/air mixture will burn when an ignition source is present.

****** SECTION 6 - Accidental Release Measures ******

Procedures for cleaning up spills or leaks:
Ventilate area. Remove sources of ignition. Prevent skin and eye contact and breathing of vapor.

Wear a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C), eye protection, gloves and
protective clothing. Confine, remove with inert absorbent, and dispose of properly.

****** SECTION 7 - Handling and Storage ******

Precautions to be taken in handling and storing:
Observe label precautions. Keep away from heat, sparks, flame, static discharge and other sources of ignition. VAPORS MAY CAUSE FLASH FIRE.

Close container after each use. Ground containers when pouring.
Do not transfer contents to bottles or unlabeled containers. Wash thoroughly after handling and before eating or smoking. Do not store above 120 deg F.

OSHA/NFPA Storage Classification: IC

Other precautions:
If material is a coating: do not sand, flame cut, braze or weld dry coating without a NIOSH approved air purifying respirator with particulate filters or appropriate ventilation, and gloves.

****** SECTION 8 - Exposure Controls or Personal Protection ******

Engineering controls and work practices:
Ventilation:
Provide sufficient ventilation in volume and pattern to keep contaminants below applicable exposure limits.

Personal Protective Equipment:
Recommended PPE:
Respiratory:
Do not breathe vapors or mists. Wear a properly fitted air-purifying respirator with organic vapor cartridges (NIOSH approved TC-23C) and particulate filter (NIOSH TC-84A) during application and until all vapors and spray mists are exhausted. In confined spaces, or in situations where continuous spray operations are typical, or if proper air-purifying respirator fit is not possible, wear a positive pressure, supplied-air respirator (NIOSH TC-19C). In all cases, follow respirator manufacturer's directions for respirator use. Do not permit anyone without protection in the painting area.

Protective clothing:
Neoprene gloves and coveralls are recommended.

Eye protection:
Desirable in all industrial situations. Goggles are preferred to prevent eye irritation. If safety glasses are substituted, include splash guard or side shields.

****** SECTION 9 - Physical and Chemical Properties ******

Evaporation Rate: Slower than Ether
Vapor Pressure of principal solvent: 7.60 mmHg @ 25 Deg C
Solubility of solvent in water: NIL
****** SECTION 9 - Physical and Chemical Properties ******

Cont'd

Vapour density (principal solvent) 6.24
Approx. Boiling range (deg C) 138 - 141 DEG (C)
Approx. Freezing range (deg C) -36 DEG (C)
Gallon weight (lbs/US gal) 10.85
Specific gravity 1.30
Percent volatile by volume 98.23
Percent volatile by weight 98.50
Percent solids by volume 1.77
Percent solids by weight 1.50
Odour Characteristic Paint Odour
Appearance semi-viscous liquid
Physical state Liquid
pH (waterborne systems only) Not Applicable
VOC* less exempt (g/l) 684.2
VOC* as packaged (g/l) 58.5

* VOC less exempt (theoretical) and VOC as packaged (theoretical) are based upon the VOC of the packaged material at the point of manufacture.

****** SECTION 10 - Stability and Reactivity ******

Stability:
Stable
Incompatibility (materials to avoid):
None reasonably foreseeable
Hazardous decomposition products:
CO, C02, smoke, and oxides of any heavy metals that are reported in "Composition, Information on Ingredients" section.
Hazardous polymerization:
Will not occur.
Sensitivity to static discharge:
Solvent vapors in air may explode if static grounding and bonding is not used during transfer of this product.
Sensitivity to mechanical impact: None Known

****** SECTION 11 - Toxicological Information ******

XYLENE
Oral LD50 4300 mg/kg Rat RTECS
Dermal LD50 1700 mg/kg Rabbit RTECS
Inhalation LC50 5000 ppm 4 h Rat RTECS

4-CHLOROBENZOTRIFLUORIDE
Oral LD50 6650 mg/kg Rat SUPPLIER MSDS
Dermal LD50 2700 mg/kg Rabbit SUPPLIER MSDS
Inhalation LC50 4479 ppm 4 HR Rat SUPPLIER MSDS
****** SECTION 11 - Toxicological Information ******

Cont'd

For all other ingredients, no information is available.

****** SECTION 12 - Ecological Information ******

**XYLENE**
- 22 mg/l  4 days  Bluegill Sunfish  FISH
- 21 mg/l  4 days  Fathead Minnow  FISH
- 10 mg/l  1 days  Water flea  INVERTEBRATES
- 10 mg/l  1 days  Daphnia  INVERTEBRATES
- 24 mg/l  4 days  Goldfish  FISH

**4-CHLOROBENZOTRIFLUORIDE**
- 12 mg/l  4 days  Bluegill Sunfish  FISH
- 14 mg/l  4 days  Rainbow Trout  FISH
- 1 mg/l   31 days  Fathead Minnow  FISH
- 4 mg/l   2 days  Daphnia  AQUATIC PLANTS
- 500 mg/l 3 days  Green Algae  AQUATIC PLANTS

****** SECTION 13 - Disposal Considerations ******

Provincial Waste Classification:
Check appropriate provincial and local waste disposal regulations for proper classifications.

Waste disposal method:
Do not allow material to contaminate ground water systems. Incinerate or otherwise dispose of waste material in accordance with Federal, State, Provincial, and local requirements. Use only approved waste management contractors. Do not incinerate in closed containers.

****** SECTION 14 - Transportation Information ******

TDG Shipping Name:
PAINT RELATED MATERIAL

Hazard Class:                           3
UN/NA#                                  1263
Packing Group:                          III

****** SECTION 15 - Regulatory Information ******

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains
all the information required by the Controlled Products Regulations.

TSCA Status:
In compliance with TSCA Inventory requirements for commercial purposes.

DSL Status:
All components of the mixture are listed on the DSL.

OCI:
All components of the mixture are listed with the Ontario Inventory.

WHMIS Classification:
- Class B Division 2
- Class D Division 2 Subdivision A 53
- Class D Division 2 Subdivision B 60

WHMIS symbols:
Flame
Toxic "T"

Photochemical Reactivity: Non-photochemically reactive
