

PBE Exchange

Budget Widget

How it Works

The Budget Widget is an optional feature that offers a real-time comparison between your monthly spending and your predetermined budget. The status of your budget is color-coded, clearly indicating whether your spending is trending above or below your monthly budget at any given point in the month.

BUDGET

[Help](#)

Show: **CURRENT MONTH** LAST MONTH YEAR TO DATE TWO YEAR VIEW

	PAINT LIQUID		PAINT ALLIED		BODY ALLIED		DETAIL ALLIED	
Budget:		\$7046		\$250		\$821		\$337
Purchases:		\$3000		\$130		\$500		\$70
Remaining		\$4046	Remaining	\$120	Remaining	\$321	Remaining	\$267

To search by date, go to the **Show** section and make a selection.

The bar color indicates if the specific budget is trending over or under budget for the month.

- **Gray:** Within budget for the month
- **Yellow:** Within 10% of budget
- **Red:** Over monthly budget

The blue line indicates where purchases should be in relation to the period of the month.

The Budget Widget appears in each order path and on the **Shopping Cart** page. The budget balance is updated as products are added to the shopping cart so users can estimate effect on budget.

By default, the drawer is closed. Click on the icon to open the drawer.

A **green** icon indicates the location is under budget.

A **red** icon indicates the location is over one or more budgets.

The screenshot displays the PBE Exchange shopping cart interface. At the top, the header includes the Axalta logo and 'PBE Exchange' text. A navigation bar contains 'CREATE ORDER', 'OR', 'DRY', and 'ADMIN' links, along with 'HELP' and a user profile icon. A modal window titled 'Budget Warning' is centered, displaying the message 'You are over budget.' and two buttons: 'EDIT MY CART' and 'PROCEED WITH CHECKOUT'. Below the modal, a progress bar for 'PAINT ALLIED' is shown, with a red segment indicating the amount over budget, labeled 'Over Budget' and '\$278.47'. At the bottom, there are buttons for 'CONTINUE SHOPPING', 'CLEAR CART', and 'UPLOAD .CSV', and the text 'ORDER TOTAL \$1.00'.

If a user attempts to place an order and their location is over budget, they will be prompted to **Edit My Cart** or **Proceed With Check Out**.

Note: Once placed, the order value is subtracted from the budget and the new available budget will appear on the home page. This is done to provide users with a real-time estimate of their remaining budget.
