

PBE Exchange

Return Order

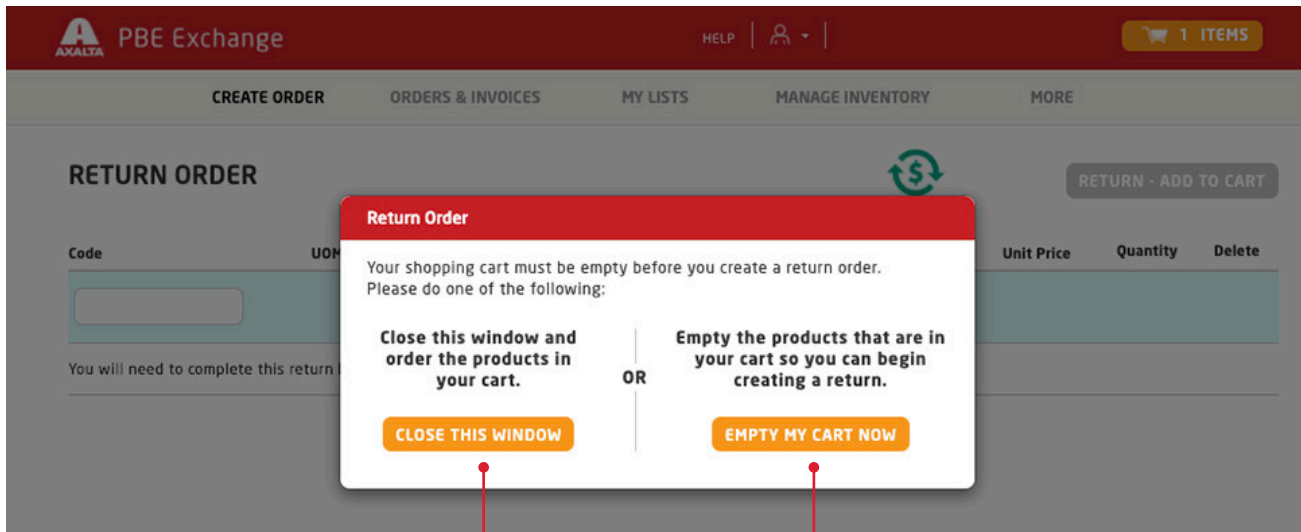

How it Works

If a product needs to be returned, please create a return order in PBE Exchange before the product is picked up.

AXALTA COATING SYSTEMS

From the PBE Exchange home page, click **Create Order** in the header, then click **Return Order** from the fly out menu.

To begin the return process, your cart must be empty. If you have existing items in your cart, the system will prompt you to empty your cart or check out before starting your return.

If you wish to clear your cart and start your return, click **Empty My Cart Now** and you can begin entering products to return.

If you wish to order the products currently in your cart, click **Close This Window** and the system will take you to check out.

Click in the **Code** field and begin typing a product code or description.

Order Summary

Distributor Invoiced	
3 items	\$0.00
ORDER TOTAL	\$0.00

Enter your purchase order number or select **Generate Axalta PO#** or **Generate Distributor PO#**.

If both PO# fields appear, enter a purchase order number in both fields.

Verify the **Ship To Address**.

If you have any additional instructions, type them in the **Instructions for Distributor** field.

When finished, click **Place Order**.

Note: For the **Place Order** button to be active, all required fields must be completed.

THANK YOU, YOUR ORDER HAS BEEN PLACED.

After your return order has been placed, the confirmation page will appear with options to **Print Your Order** or **Save Order as a PDF**.
