

# NATIONAL RULE PRODUCT SYSTEM

VALUE YOU CAN COUNT ON

AN AXALTA COATING SYSTEMS BRAND

# METALUX® NATIONAL RULE

We offer award winning color systems from the lightest colors to the darkest and everything in between. Our insistence on providing superior systems and value to our customers has seen the formulation of a truly impressive range of products.

The unparalleled combination of performance excellence, world class color match, premier color tools and support are key in exceeding our customer's expectations with the best paint products around.

## **COLLISION-QUALITY COLOR MATCH**

Metalux products are fast and easy to apply for a long-lasting, collision-quality finish. Achieving an accurate color match to thousands of vehicles with our basecoat color system has never been easier.

## **COMPACT SYSTEM**

With a compact system of primers, sealers, basecoats and clearcoats, the Metalux National Rule product line is sure to have a paint solution for all your collision repair needs.

## **USER-FRIENDLY APPLICATION**

Metalux products are straightforward to use with simple mix ratios and can be used in a wide range of applications.

# UNDERCOATS

## DTM PRIMER

A DTM filler that may be applied directly to larger areas of bare metal without the need to apply an etch filler. Ideal for spot, panel and multi-panel use on properly cleaned and sanded steel, galvanized metal, aluminum, cured body filler, fiberglass and OEM enamels. When used as a medium or high build filler surfacer, DTM is formulated to offer excellent corrosion protection, outstanding gloss holdout, great fill and leveling characteristics that easily sands by hand or machine. Increase your productivity and profitability with this fast drying DTM that offers the performance and versatility needed for any repair.

**VOC:** 4.8 lbs/gal

UNDERCOAT	HARDENER
MX9722 2K Grey DTM Primer	9082 MS Ultra Fast Hardener 9091 MS Fast Hardener 9092 MS Medium Hardener

## PRIMER FILLER

A premium high build, primer filler surfacer for automotive refinishing and new body work. Featuring superior high build properties, this primer levels to a smooth surface, laying down the perfect ground work for your repair. Designed to increase your productivity with faster dry times and cover with less coats, this primer filler has excellent gloss retention, color holdout, outstanding adhesion and sanding characteristics.

**VOC:** 4.46 lbs/gal

UNDERCOAT	HARDENER	REDUCER
9347 Grey High Solids Primer Filler	9082 MS Ultra Fast Hardener 9091 MS Fast Hardener 9092 MS Medium Hardener	1156 Universal Reducer Fast 1157 Universal Reducer Medium 1158 Universal Reducer Slow

## 2K SEALER

A two-component, urethane sealer that is non-sanding and applies smoothly, maintaining superior color and gloss retention for high quality finishes. Its non-sanding qualities save time and money, offering quicker throughput. This less expensive alternative offers a surface of uniform color to help reduce the amount of topcoat material needed. This sealer is available in white, grey and dark grey, with the ability to be intermixed.

**VOC:** 4.6 lbs/gal

BASECOAT	REDUCER
National Rule Basecoat	1156 Universal Reducer Fast
	1157 Universal Reducer Medium
	1158 Universal Reducer Slow

# CLEARCOATS

## UNIVERSAL CLEARCOAT

A two-component, high build, clearcoat formulated for complete overall applications. This clearcoat meets National Rule VOC requirements and features a durable high gloss finish with excellent flow and leveling characteristics, making application easy. This 4.2 lbs/gal VOC clearcoat offers quick, overall high build coverage with only two coats. The 9700 utilizes the Metalux Universal MS Hardeners keeping your inventory to a minimum.

**VOC:** 4.2 lbs/gal

UNDERCOAT	HARDENER
9700 Universal Clearcoat	9082 MS Ultra Fast Hardener
	9091 MS Fast Hardener
	9092 MS Medium Hardener
	9093 MS Slow Hardener

## PANEL CLEARCOAT

A two-component versatile, fast drying clearcoat that is excellent for spot, panel, and multi-panel refinishing. This clearcoat meets National Rule VOC requirements, and offers a high gloss, DOI, excellent flow and leveling while featuring a dual combination of speed and glamour. Its great for air-dry and baking environments, and utilizes universal MS hardeners to minimize inventory.

# METALUX NATIONAL RULE COLOR TOOLS

## PROFESSIONAL COLOR SELECTOR

Sprayed fan decks chromatically organized make it quick and easy to find color within color families.

Part number: MXA-BOX

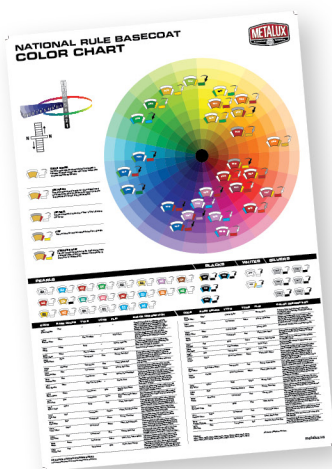

## COLOR CHOICE® SOFTWARE

Color Choice provides an extensive library of 50,000+ color formulas with monthly updates for new and updated colors.

## ACQUIRE® COLOR COMPACT SPECTROPHOTOMETER

When paired with Color Choice, the Acquire Color Compact Spectrophotometer reads color and helps find the most accurate color formula.

## COLOR MOVEMENT CHART

Color movement charts provide visual tips on how to use toners to move color in the right direction, if necessary.

Part number: LH202

# ADDITIONAL COLOR TOOLS

## VINDICATOR\*

VINdicator is Axalta's exclusive color retrieval tool designed to help customers easily and efficiently select the right color formula using the Vehicle Identification Number (VIN). When used exclusively with ColorNet, VINdicator offers a simple alternative to other formula-retrieval options to assist customers in choosing the right formula when multiple variants exist for a given color.

\*VINdicator is only offered when used exclusively with ColorNet.
